

PERFORMANCE REVIEW 2025

Dhaka Stock Exchange

BRAC EPL RESEARCH

Dec 30, 2025

SUMMARY

Despite a good Q3'25, Bangladesh Market saw an overall anemic trading activity during 2025. Market turnover during 2025 echoed dynamic sentiment from several developments, notably - US Tariff imposition on BD, international conflicts, bank sector, and local political developments. While certain macro variables are showing signs of improvement (interest rate, inflation, FX market), bank sector reforms and galloping NPL have raised investor concern. DSEX, the benchmark free float weighted market index, declined 6.7% in 2025, while equity market cap declined 9.9%. Jan'25-Sep'25 period witnessed relatively stable corporate earnings, when banks and NBFIs are excluded.

- ❑ 9M'25 corporate earnings deteriorated (-423.7% YoY), however, when Banks and NBFIs are excluded, earnings have experienced a marginal decline (-0.5%).
- ❑ Following Jan'25 rebalancing, DSEX included 87 new companies and dropped 14 companies. While 2 stocks (BEXIMCO and ISLAMIBANK) continue to have floor price, the latest index rebalancing now adheres to the historical norm, which deviated in 2024.
- ❑ ADTV declined substantially to BDT 5,215 Mn during 2025 (-17.5% YoY) compared to BDT 6,320 Mn in 2024.
- ❑ Ceramics & General Insurance sector outperformed DSEX (+3.1% return) & (+3.8% return) during 2025, while NBFi underperformed (-27.6% YTD return). Among the large cap sectors, Textile, Fuel & Power, and Pharma sectors have outperformed DSEX, while NBFi, Telco, Food & Allied, and Engineering have performed poorly.
- ❑ No IPOs debuted during 2025 in Equity-Main Market or in DSE SME market. No corporate bonds were also listed during the period. The current BSEC commission is focused on bringing stability and discipline in the capital market, hence priority on introducing IPOs has taken a back-seat.
- ❑ DSMEX, the SME market benchmark index, lost 21.6%, while ADTV stood at BDT 57.2 Mn in 2025.
- ❑ MNCs (-16.5% YTD return), free-float based top 10 large cap scrips (-11.6% YTD), and MCAP based Top 10 and (-10.5% YTD) have underperformed compared to DSEX during 2025.
- ❑ Global investment research firm Morgan Stanley Capital International (MSCI) has made no changes for Bangladesh market in its Nov'25 review. Currently, 42 DSE companies are included in the FTSE Frontier Index as of Nov 2025.

Others

Among other sectors, YTD price return from General Insurance and Cement sectors were +3.8% and -11.1%, respectively. Recovery in bottom-line had positive impact on Cement scrips. Meanwhile, Textile and Fuel & Power sectors posted -2.7% and -10.1% YTD price return, respectively.

CLOSED-END MUTUAL FUND SECTOR

Fund managers substantially underperformed in 2025, with a 15.7% YTD decrease in price returns, while YTD NAV returns decreased by 9.8% in 2025. As of December 2025, the sector's total assets under management (AUM) stood at BDT 44.1 Bn (USD 360.4 Mn), down from BDT 48.8 Bn (USD 406.8 Mn) in December 2024.

Unitholders decided to convert SEMLLECMF into open-end fund and liquidate VAMLBDMF1 and ATCSLGF. Notable takeaways from the updated Mutual Fund regulation – (i) no new closed-end mutual fund (ii) no tenure extension and (iii) closed-end funds to either convert into open-end or liquidate if price drops 25% below the higher of issue price or NAV.

IMPORTANT DISCLOSURES

Analyst Certification: Each research analyst and research associate who authored this document and whose name appears herein certifies that the recommendations and opinions expressed in the research report accurately reflect their personal views about any and all of the securities or issuers discussed therein that are within the coverage universe.

Disclaimer: Estimates and projections herein are our own and are based on assumptions that we believe to be reasonable. Information presented herein, while obtained from sources we believe to be reliable, is not guaranteed either as to accuracy or completeness. Neither the information nor any opinion expressed herein constitutes a solicitation of the purchase or sale of any security. As it acts for public companies from time to time, BRAC-EPL may have a relationship with the above mentioned company(s). This report is intended for distribution in only those jurisdictions in which BRAC-EPL is registered and any distribution outside those jurisdictions is strictly prohibited.

Compensation of Analysts: The compensation of research analysts is intended to reflect the value of the services they provide to the clients of BRAC-EPL. As with most other employees, the compensation of research analysts is impacted by the overall profitability of the firm, which may include revenues from corporate finance activities of the firm's Corporate Finance department. However, Research analysts' compensation is not directly related to specific corporate finance transaction.

General Risk Factors: BRAC-EPL will conduct a comprehensive risk assessment for each company under coverage at the time of initiating research coverage and also revisit this assessment when subsequent update reports are published or material company events occur. Following are some general risks that can impact future operational and financial performance: (1) Industry fundamentals with respect to customer demand or product / service pricing could change expected revenues and earnings; (2) Issues relating to major competitors or market shares or new product expectations could change investor attitudes; (3) Unforeseen developments with respect to the management, financial condition or accounting policies alter the prospective valuation; or (4) Interest rates, currency or major segments of the economy could alter investor confidence and investment prospects.

AI Usage and Verification: We use AI tools to assist with certain cases of data processing and drafting; however, all inputs, analyses, and outputs are reviewed, verified, and approved by qualified BRAC-EPL research analysts before publication. Where AI assistance is material, sections may be marked "AI-assisted." All published views, ratings, targets, and estimates are human-generated, fact-checked against source data, and documented under our internal audit controls. AI tools are used in compliance with our data governance and research-independence policies.
