IMF warns of rising inflation risks as global growth is projected at 3% this year

The International Monetary Fund (IMF) has projected global economic growth at 3% in 2026, with growth expected to improve slightly to 3.4% in 2027. The forecast was published on Wednesday (8 July) in the IMF's "World Economic Outlook (July 2026 Update)" report. The IMF noted that there has been no significant change in the overall outlook compared to its previous forecast released in April.
